

Alma Chronicles V

The Comet's Return

In 2061 Arizona, Angela dreams of people she should recognize and events she should remember. With her career and her sanity in jeopardy, she goes to the trunk opening for Halley's Comet and finds her love from their previous incarnation. Connecting with her previous lifetime opens Angela to the great knowledge. Kegan yet walks the world, intent on ending the blood feud from Celtic times.

In the Alma Chronicles, souls, bound together in a circle of love, passion, betrayal, and murder, reincarnate lifetime after lifetime from the ancient Celtic world through twenty-first century America.

"The Comet's Return is replete with visions, premonitions, clairvoyance, reincarnated persons... thought-provoking ."
